

PARTNER PROGRAM · Q2 2026

Earn on the customers and deal flow you bring.

Represent the origination and financing platform for lower middle market M&A. You bring the relationships; we bring the product, the customers, and the payouts.

3,700+ DATA SOURCES

30-day LEAD EXCLUSIVITY

THE OPPORTUNITY

Build on a platform, not alone.

The best operators stop selling themselves and start representing something bigger. Put a funded, institutionally backed platform behind every introduction you make.

A real commission role.

Recurring income, not one-off finder's fees.

Bring your network.

Acquirers, owners, and capital partners active in the lower middle market.

We do the work.

Sourcing, outreach, financing, and payouts run on our side.

HOW YOU EARN

Three ways to get paid.

You're paid for outcomes, not introductions. When the people you send us become customers, surface real deal flow, or close financing, a share comes back to you.

Revenue share.

20% of a referred customer's spend for their first 12 months.

Deal & customer referrals.

A flat fee when a business or buyer you introduce is accepted.

Financing referrals.

A share of the fee when someone you send for capital closes.

THE PLATFORM

A platform worth representing.

Dealport is building the origination and financing platform for small and medium-size business M&A — with paying customers today and a vetted capital network.

Built to convert.

Off-market deal flow, scored targets, 30-day exclusivity.

Priced to win.

More capability than incumbents, at a lower cost.

Financing built in.

Capital comes to the borrower by RFQ, free to them.

WHO WE ARE

We've lived every side of the deal.

We've lived the grind — run family office portfolios, acquired and exited operating companies, and led M&A inside PE-backed businesses. We built Dealport to give independent operators that same edge, and we're looking for motivated, talented, and passionate partners to build it with us. Prior firms include **Marathon Asset Management**, **BCG**, **Ernst & Young**, and **Riviera**.
